STANDARD GROUND HANDLING AGREEMENT - Swissport

IATA Delay Codes were created to help airlines standardize why a commercial flight left late from its departure airport. Previously every airline had its own system, so IATA standardized the format of transmission of delay information into these delay codes. These delay codes are used to find out who is responsible for the delay and who will be penalized.

Aviation-Ops: Airline Delay & Diversion Codes

Figure 8. Primary and reactionary all-cause delay, by IATA code (%) The average delay per flight and share of delay minutes for all causes grouped by IATA codes (Figure 8) shows that: Reactionary delay and Technical and Aircraft Equipment saw a decrease in its contribution to the average delay per flight in minutes but their share of delay ...
