Flow Control Flowserve

Flowserve's collection of product and technical literature provide flow-control solutions in the oil and gas, chemicals, power, water and general industries.

Flowserve Corporation | Home

The SLD seal support system from Flowserve dispenses lubrication to the atmospheric side of mechanical seals. It is ideal for seals subjected to periods of dry running or cavitation when product liquid (pumpage) does not provide adequate film between seal faces. The SLD is proven to greatly extend flushless seal life in harsh slurry conditions.

All Products | Flowserve

The exacting design and manufacturing of our quarter-turn, rotary, linear, control and specialty valves result in reliable performance, extended service life, and safe operation in a wide range of applications and environments.

Valves | Rotary Control Valves | Flowserve

The FlowTop control valve is a high-performance, general application valve coupled with the high-thrust FlowAct pneumatic diaphragm actuator. The modular design allows you to use the same body with different types of bonnets, trims and actuators. This leads to the reduction of spare parts and offers an interchangeable valve for a broad range of industries and applications.

Linear Globe/Angle Control Valves - FlowTop | Flowserve

Flowserve Worcester Controls' Series WK 70 forged clean valves and WK 74 cast clean valves operate dependably in the pharmaceutical, biotech, food, cosmetic, paint, chemical and semi-conductor manufacturing industries where microbes, media deposits, mineral impurities and cross-contamination can threaten the quality of the product.
