Paper Bird Beak Templates - wakati.co

With A4 paper the bird should be approximately 15 cm high when sitting. In my coloured version I used slightly thicker paper (135 g/m^2) which my printer could still print on but normal printing paper (70-80 g/m^2) also works fine. My white prototype is made from this. It is a bit easier to fold, however the flaps tend to be visible when light ...

Whether you are creating a craft statue of a bird, a bird mask, or a full bird costume, foam can be a great tool to make a three-dimensional bird beak. Creating a foam beak, however, requires a steady hand and a lot of patience--you may need multiple attempts before you create a foam beak that most accurately and satisfactorily represents the ...

How to Make a 3D Craft Foam Beak | eHow

This should create a 3D beak now but it will spring back into place once you let go. The children should fold an edge along the line they have just created all the way down to the bottom of the beak. If you tackle one side at a time this will be easier - staple along each fold they have created so the beak stays in the 3D shape.
