Interface Between Sectoral Regulator And Competition ...

Intellectual property (IP) allows consumers to make choices between competing entrepreneurs, and the goods and services they sell. Therefore, IP is inherently pro-competitive as it ensures the protection of differentiated, intangible business assets. Without IP, less efficient manufacturers and service providers would try to lure clients by copying the goods and services of more efficient competitors.

IP and Competition Policy - WIPO

The interface between competition and consumer policies The Sixth United Nations Conference to Review All Aspects of the Set of Multilaterally Agreed Equitable Principles and Rules for the Control of Restrictive Business Practices (Geneva, 8-12 November 2010) invited UNCTAD to convene two expert meetings on consumer policy between the Review Conferences, separate from the Intergovernmental Group of Experts on Competition Law and Policy.

The multi-faceted interaction between competition and intellectual property (IP) laws raises many tricky legal issues related to whether IP owners should be permitted to engage in conduct that may have an adverse impact on the competitive process. Presented by Professor Richard Whish QC

Interface between Competition and Intellectual Property ...

In The Interface between Competition Law, Patents and Technical Standards, David Teylas presents a systematic analysis of how competition law ensures that holders of technical standards (essential patents or SEPs) do not unduly exploit their advantage. The waging of "patent wars" is among the prominent features of today's litigation landscape, with a single SEP being sufficient to block third parties from implementing the standard to which it relates and thus effectively excluding ...

The Interface between Competition Law, Patents & Technical ...

According to the United Nations Conference on Trade and Development (UNCTAD) document on 'Examining the interface between the objectives of competition policy and intellectual property', the main objective of IPR is to encourage innovation by providing the relevant incentives. This objective is achieved by granting to inventors some exclusive rights on their inventions to allow them to recover research and development investments for a certain period of time.
